

**** DECENTRALIZED SMALL PIPE WORKSHOP ****

A COMPREHENSIVE DISCUSSION OF A COST-EFFECTIVE
WASTEWATER MANAGEMENT ALTERNATIVE

FEATURED PRESENTERS:

1. Orenco Systems, Inc., Sutherlin, Oregon
Largest U.S. provider of effluent sewer technology and support
2. Coastal Engineering Co., Inc., Orleans, MA
Over 3 decades of Cape Cod wastewater experience
3. Lombardo Associates, Inc., Newton, MA
35 years experience in decentralized wastewater management

BENEFITS OF THE SMALL PIPE ALTERNATIVE:

1. Lower cost since effluent pipes use no deep excavations as required by gravity sewers.
2. Pre-treatment by septic tanks reduces cost of nitrogen remediation.
3. Solutions to problem areas can be installed independently.
4. Better for the environment since destruction and disruption to the landscape is minimized.

SATURDAY, JUNE 25th 9:00 A.M. – NOON
